PETALUME

Light inspired by the movements of nature

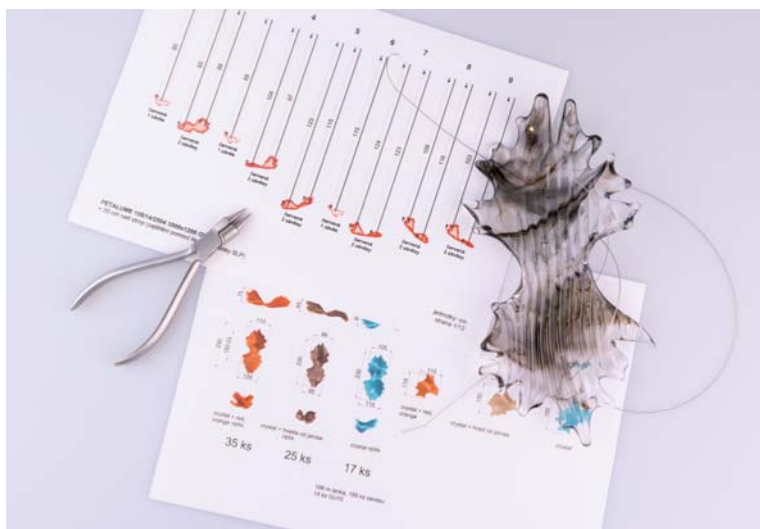

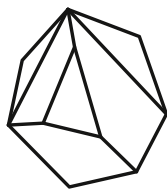

The design of the Petalume chandelier is inspired by the gentle movement of flower petals carried by the wind and drifting across a water surface, softly guided by the current.

This idea is reflected in hand shaped crystal components with organic forms and precise craftsmanship, which bring a sense of natural elegance into the interior. Each “petal” has its own distinct character, some are smooth, while others are adorned with delicate ribbing. Together, they form a harmonious composition that appears to float effortlessly in space.

The fixture is available in five colour variants: Ferrari Red + New Red + Crystal, Smokey Topaz + Crystal, Crystal, Middle Blue, and Crystal + Optical Pattern + Gilding.

The Petalume crystal chandelier is especially suited to representative and spacious interiors, where its natural beauty and the interplay of light within the crystal material can be fully appreciated.
